#### Comments:

- HAG complies with the FTC's Guide for the Use of Environmental Marketing Claims.
- HAG encourages blanket-wrapped shipping - corrugated cartons are used for other modes.
- Product recycling depends on local program.

### Indoor Air Quality (IAQ) - Greenguard Certification

Good, clean, indoor air quality is critical to providing healthy environments for building occupants. People today spend as much as 90% of their time indoors. GREENGUARD Certification offers a way to keep pollutants out in the first place. Using products bearing the GREENGUARD Indoor Air Quality

Certified® mark can rest easy knowing these products have been independently tested and meet one of the most rigorous chemical emission standards in the world. HAG's GREENGUARD Certification makes them recommended by the U.S. Green Building Council's (USGBC) LEED® Rating System. We're proud of our certification and our commitment to the environment.
