

HÅG Tribute™

HÅG

Celebrating movement

The essence of luxury

HÅG Tribute is our most comfortable deluxe task chair to date. Generously padded and wider, yet visually sleek, this is a plush and prominent piece of office furniture that isn't made just to support you; it's made to move you too. The aim is to encourage you to work while providing the essence of luxury in design.

Dynamic, adventurous design

Norwegian designer Svein Asbjørnsen collaborated with us on HÅG Tribute. An outdoor enthusiast with a passion for the environment, Svein finds inspiration in the natural world around him. He is renowned for his design and craftsmanship of fine furniture, and has been a powerful force behind HÅG's executive collection. Svein was determined to help HÅG create the world's most uncompromisingly comfortable executive chair.

“I am passionate about how we sit
and how it affects us over time.”

— Svein Asbjørnsen/sapDesign®

Our dedicated team

Each HÅG Tribute chair is manufactured with absolute precision and lovingly crafted by one of the many skilled technicians at our factory in Rørros, Norway – a historic town with a magical atmosphere. HÅG has been a major part of the community here since 1957, and we're proud to have such a dedicated team of designers and engineers.

A showpiece in any room

Combining timeless design and enduring quality, HÅG Tribute is highly sustainable – a value we've always promoted at HÅG. This chair also includes everything we've ever discovered about balanced sitting and lasting comfort. Humans are made to move and shift position; we're not meant to sit still for long periods of time – not in the office or the boardroom.

Features and benefits:

Adjusts to individual needs

HÅG Tribute incorporates our signature HÅG in Balance® technology, which enables the easy transition between active and relaxed sitting. This dynamic design continuously supports your body's movements and boosts your energy levels. What's more, HÅG Tribute has a pioneering upper-back bolster and headrest that give ideal support – a feel-good feature that intuitively responds whenever you recline. The multifunctional HÅG TiltDown™ armrests are easy to adjust and allow you to sit much closer to your desk. In addition, the lumbar support slides smoothly up or down with the turn of a sophisticated wheel to personalize your sitting experience.
