## **HÅG** Tion

Flokk AS

www.epd-norge.no

## **General information**

**Product:** 

HÅG Tion

Program operator:

The Norwegian EPD Foundation Pb. 5250 Majorstuen, 0303 Oslo Phone: +47 23 08 80 00 e-mail: post@epd-norge.no

**Declaration number:** 

NEPD-4141-3375-EN

**ECO Platform reference number:** 

This declaration is based on Product Category Rules:

CEN Standard EN 15804:2012+A1:2013 serves as core PCR NPCR 026:2018 Part B for furniture

Statement of liability:

The owner of the declaration shall be liable for the underlying information and evidence. EPD Norway shall not be liable with respect to manufacturer information, life cycle assessment data and evidences.

**Declared unit:** 

1 Pcs HÅG Tion

Declared unit with option:

A1,A2,A3,A4

**Functional unit:** 

HÅG Tion 2100 (including knock down packaging)

General information on verification of EPD from EPD tools:

Independent verification of data, other environmental information and the declaration according to ISO 14025:2010, § 8.1.3 and § 8.1.4. Individual third party verification of each EPD is not required when the EPD tool is i) integrated into the company's environmental management system, ii) the procedures for use of the EPD tool are approved by EPDNorway, and iii) the process is reviewed annualy. See Appendix G of EPD-Norway's General Programme Instructions for further information on EPD tools.

**Verification of EPD tool:** 

Independent third party verification of the EPD tool, background data and test-EPD in accordance with EPDNorway's procedures and guidelines for verification and approval of EPD tools.

Erik Svanes, Norsus AS

Owner of the declaration:

Flokk AS

Contact person: Atle Thiis-Messel Phone: 0047 98 25 68 30 e-mail: atle.messel@flokk.com

Manufacturer:

Flokk AS

Drammensveien 145, 0277 Oslo

Norway

Place of production:

Flokk - Røros Sundveien N-7374 Røros

Norway

Management system:

ISO 14001, ISO 9001, ISO 50001(Norway, Sweden)

Organisation no:

No 928 902 749

Issue date:

30.12.2022

Valid to:

30.12.2027

Year of study:

2022

Comparability:

 $\ensuremath{\mathsf{EPDs}}$  from programmes other than the Norwegian  $\ensuremath{\mathsf{EPD}}$  Foundation may not be comparable

**Development and verification of EPD:** 

The declaration has been developed and verified using EPD tool lca.tools ver EPD2020.11, developed by LCA.no AS. The EPD tool is integrated into the company's environmental management system, and has been approved by EPD-Norway

Developer of EPD:

Kenneth Dam Lindegaard Knudsen

Reviewer of company-specific input data and EPD:

Atle Thiis-Messel

## **Product**

#### Market:

Worldwide

#### **Product description:**

The HÅG Tion is an activity chair that embraces the freedom to work just about anywhere, equipped with only the most necessary features for a simple work chair. The HÅG Tion has an honest design and is easy to re-furbish

HÅG Tion is at the forefront of sustainable design, made using recycled plastic, aluminium and steel, ethically sourced woods, and without any toxic chemicals – making it one of our most sustainable design to date. With its collection on diversity and the possibility to design the perfect chair for you, the HÅG Tion is a chair that fits everyone anywhere.

(HÅG Tion 2100):

Chair height: 802-936 mm (with gas lift 150 mm)

Chair width: 464 mm Chair depth: 505 mm

## **Product specification**

The model studied in detail in this declaration is the HÅG Tion 2100 with seat and back plastic shells and its knock down packaging option, Packaging 1.

The seat and back plastic shells, in any colors, consists of 94% post-consumer recycled polypropylene (PP) coming from European waste stream, including household waste.

The key environmental indicators for the other models of the HÅG Tion collecton are presented on a table page 8 of this declaration.

#### Technical data:

Total weight: 10,99 kg (packaging excluded) Total weight: 13,68 kg (packaging included)

### LCA: Calculation rules

#### Declared unit:

1 Pcs HÅG Tion

## Cut-off criteria:

All major raw materials and all the essential energy is included. The production processes for raw materials and energy flows with very small amounts (less than 1%) are not included. These cut-off criteria do not apply for hazardous materials and substances.

## Data quality:

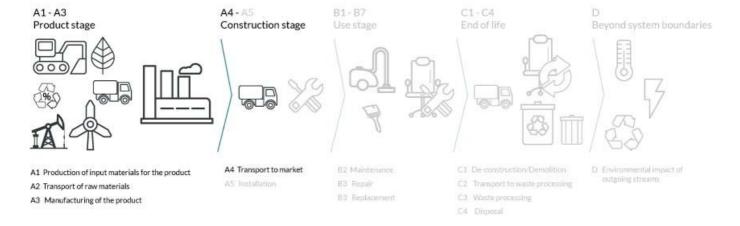

Specific data for the product composition are provided by the manufacturer. They represent the production of the declared product and were collected for EPD development in the year of study. Background data is based on registered EPDs according to EN 15804, Ostfold Research databases, ecoinvent and other LCA databases. The data quality of the raw materials in A1 is presented in the table below.

#### Allocation:

The allocation is made in accordance with the provisions of EN 15804. Effects of primary production of recycled materials is allocated to the main product in which the material was used. The recycling process and transportation of the material is allocated to this analysis.

## **Additional Norwegian requirements**

#### Greenhouse gas emissions from the use of electricity in the manufacturing phase

National production mix from import, low voltage (production of transmission lines, in addition to direct emissions and losses in grid) of applied electricity for the manufacturing process (A3).

| Electricity mix                                  | Data source      | Amount | Unit          |
|--|------------------|--------|---------------|
| Energy, electricity, hydro, Nordic average:1 kWh | Østfoldforskning | 10,19  | g CO2-ekv/kWh |

#### **Dangerous substances**

The product contains no substances given by the REACH Candidate list or the Norwegian priority list.

#### Indoor environment

GREENGUARD Gold certified

## Additional environmental information

Key environmental indicators for variants for this EPD: Cradle to Gate analyse from A1 to A3

| Variant number   | Global warming (kg<br>CO2) | Total energy use (MJ) | Share of recycled material in |
|--|----------------------------|-----------------------|-------------------------------|
| HÅG Tion 2100 - Plastic chair - No packaging                                 | 35,74                      | 539,73                | product(%)                    |
| HÅG Tion 2140 - Plastic chair, upholstery seat (Cura/Gabriel) - No packaging | 36,40                      | 552,60                | 73,11                         |
| HÅG Tion 2160 - Plastic chair, upholstery seat/back (Cura/Gabriel) - No      | 36,97                      | 562,01                | 72,33                         |
| packaging<br>HÅG Tion 2200 - Wooden chair - No packaging                     | 32,72                      | 465,64                | 73,24                         |
| Håg Tion 2240 - Wooden back, upholstery plastic seat (Cura/Gabriel) - No     | 34.96                      | 495,66                | 53,22                         |
| packaging  | - /                        | ·                     | 64,10                         |

Key environmental indicators for options for this EPD: Cradle to Gate analyse from A1 to A3

| Option number   | Global warming (kg<br>CO2) | Total energy use (MJ) | Share of recycled material in product(%) |
|---|----------------------------|-----------------------|--|
| HÅG Tion Footring   | 9,80                       | 118,44                | 75,01                                    |
| HÅG Tion Armrests - Painted   | 7,11                       | 89,55                 | 89,26                                    |
| HÅG Tion Armrests - Polished  | 6,14                       | 71,64                 | 96,22                                    |
| HÅG Tion - Packaging 1 (Small box, flat packed - used in declared unit) | 5,00                       | 60,42                 | 51,41                                    |
| HÅG Tion - Packaging 2 (Large box, fully assembled)                     | 7,06                       | 84,86                 | 66,95                                    |
