

BABLED
Easy Chair
By Emmanuel Babled

OFFECCT

PRODUCT INFORMATION

"The inspiration for the shape and composition of Babled chair came to me when I saw a butterfly leaning on a brick. I loved the contrast between fragility and resilience. The finished piece defines a place in a somewhat cinematic way. While the flowing lines of the soft shell invite you to lean back and stick your legs out in a relaxed way, it also protects you and gives you a sense of control and coolness while swirling around, surveying a room in 360 degrees", says Emmanuel Babled.
