WAY OF DESCRIBING CONFIGURATION OPTIONS IN THE GUIDE

Example sofa: Circulus 3 seater SB120

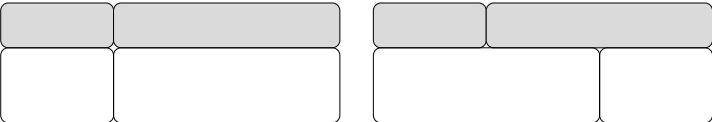

Seat upholstery options

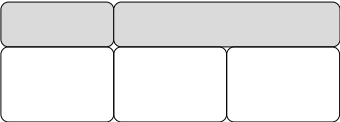

1. Single seat

2. Double + single seat

3. Single seat

Backrest options

Low backres as standard, high backrest available as option for all configurations:

Low backrest - Standard

High backrest - Optional

The seat upholstery can be configured as an option. The upholstery on the backrest is only available as an element of the configuration of a particular system, then the backrests can be connected or separate.

Sofas are also available with ottoman modules in the non-upholstered Plain version.

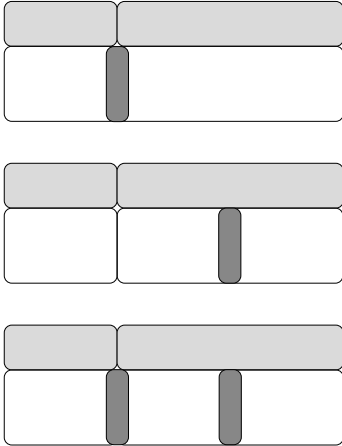

For the Plane version, you can additionally install veneer pad in the Top and Edge versions.

If the Circulus sofa configuration has a combined backrest, we configure it as low (standard) or high (optional) as a whole unit.

Places where armrest installation is possible:

The armrest upholstery is available in two variants:

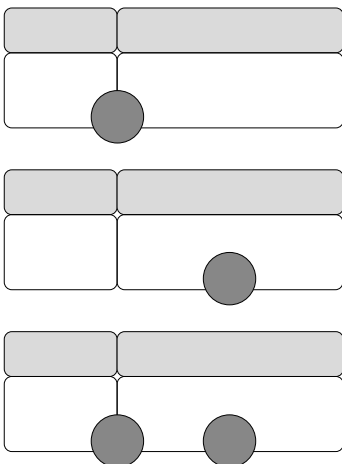

The same as the seat

With a veneer finish

Places where installation of the rectangular and round table is possible*:

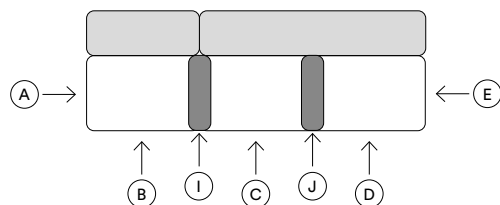

*It is possible to install an armrest and a table at the same time.

OFFECCT

CIRCULUS BY MARIO FERRARINI

Possible placement of power outlets:

Power outlets can be positioned in various locations, with the following guidelines:

- Front of the seat panel (placement on the rear of the backrest is not permitted). Position from the presented example B, C and D.
- Sides of the seat (not possible when connecting modules). Position from the presented example A and E.
- Armrest. Position from the presented example I and J.

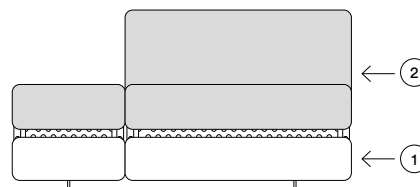

Limitations:

- Ottomans: Two ports cannot be placed on opposite sides.
- A maximum of two power outlets per sofa.

An additional power outlet (MCS000C001) can be ordered for self-assembly. It can be mounted on the side of the backrest frame.

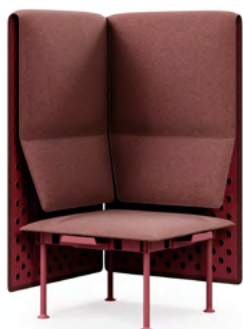

Upholstery:

Different fabrics are possible. If you mix fabrics from different price groups, please contact Sales Support for an accurate offer. Refer to:

- Seat (element no 1) and
- Backrest (element no 2) when selecting the fabric.

The Circulus can be configured as a corner sofa. To do this, you need to select a corner module and two additional sofas. The connectors are required for the sofas, in the corner they are standard. The corner sofa is available in all versions: with a low backrest, high backrest and with an upholstered or unupholstered ottoman.
