PRODUCT INFORMATION

Green Pedestals enhances the plants with its elegant legs and can be used as a room element that for example functions as a room divider or creates a sort of an oasis. Some variants have dimensions that fit perfectly at the side of a desk, other fits in height next to a seat or a window. It is possible to add a seat or a table top to the round model, and by placing them in a row or in a group they form a sort of a bench that is surrounded by greenery.

“We were inspired by traditional pedestals. We think that the pedestal is a fantastic piece of furniture that needs a revival. With slim legs that are slightly irregular Green Pedestals receives a kind of a personality”, says Sofia Lagerkvist, Front.
