

RH AXIA 2.0

DESIGNED FOR HUMAN PERFORMANCE

RH AXIA 2.0

The RH Axia 2.0 series features ergonomic office chairs that are built and shaped for individual sitting experiences in different work environments. Find your perfect match. For your perfect workday.

DESIGNED FOR HUMAN PERFORMANCE

BUILT AND SHAPED FOR INDIVIDUAL SITTING EXPERIENCE

RH Axias modular construction and patented mechanics, ensure that everyone can sit healthy and comfortable. RH Axia makes it possible to create an office chair that meets all the ergonomic requirements of the user. Ergonomics at its core.

ERGONOMIC OFFICE CHAIRS FOR INDIVIDUALS

RH Axia 2.0 is characterised by the movement of the chair. The back rest and seat move together at a fixed angle, ensuring proper pelvic support thanks to the interaction between the support points in the back rest and seat.

RH Axia has a unique mechanism with split seat technique. The front part of the Axia is fixed, only the rear section of the chair moves together with the user as the lean forward or backward.

A CIRCULAR OFFICE CHAIR

RH Axia is a circular office chair, made of high-quality and sustainable materials. Thanks to the "Design for Disassembly" design principle, all parts can be separated at material level after their lifespan and serve as raw materials for new products. All in all a healthy and sustainable product that is produced in a responsible way to help reduce the environmental impact on our planet.

RH Axia is known for its modularity principle. The ability to have the components, replaced, upgraded independently & separated for recycling. The modular design of the Axia 2.0 makes it possible to put together an office chair that meets both standard and individual ergonomic requirements and at the same time matches the style and design of your working environment.

85%
Polypropylene

Axia 2.1

RH Axia 2.1 is the ideal chair for small and light persons. An ergonomic office chair with a low back that provides optimum support for the lower back.

Axia 2.2

RH Axia 2.2 is fitted with a medium backrest and is one of the most popular RH Axia model, because of its adjustability, options, high quality, ergonomics and user friendliness.

Axia 2.3

RH Axia 2.3 is fitted as standard with a thicker seat cushion and an extra thick, ergonomically shaped back cushion. The chair has plenty of sitting comfort, even for heavier users.

Axia 2.4

RH Axia 2.4 is fitted with a high back and extra thick seat cushion for optimal comfort. RH Axia 2.4 can also be fitted with an adjustable head rest.

Axia 2.5 Netweave

RH Axia 2.5 is equipped with a netweave back with pelvic support. The netweave fabric is available in six different colours inspired by deep forests, wide fields, flowers, stone, concrete and brick. Using colours that are found in the environment creates a modern and luxurious design expression in combination with upholstery options from our Standard, Extended or Curated selection of fabrics.

RH AXIA 2.0

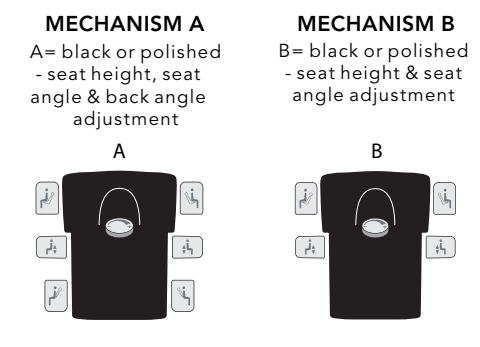

DESIGNED FOR HUMAN PERFORMANCE

The adjustments of RH Axia office chairs are simple, practical and intuitive. All controls are located for easily access with pictogram guiding the function.
