Match yourself

WITH RH MEREO MESH

Colour reflects who we are and how we work.

Each of the 15 shades in this collection brings a distinct expression. Some calm and neutral, others bold and expressive. Together, they form a mesh palette designed for clarity, contrast, and long-term relevance. By presenting each mesh colour as a character, we aim to spark interest and reflection in the design process. This moodboard offers a simple way to explore the range, visually and conceptually.

Match yourself. Perform at your best.
