

RH LOGIC

DESIGNED FOR HUMAN PERFORMANCE

RH LOGIC

We created RH Logic 200/220 in order to make something great even better. A chair that merges characteristic comfort and first class ergonomics with improved features and accessibility to enhance user experience.

Furthermore, we have developed a visual design to create a neat shape and sophisticated look that blends seamlessly into almost any working space.

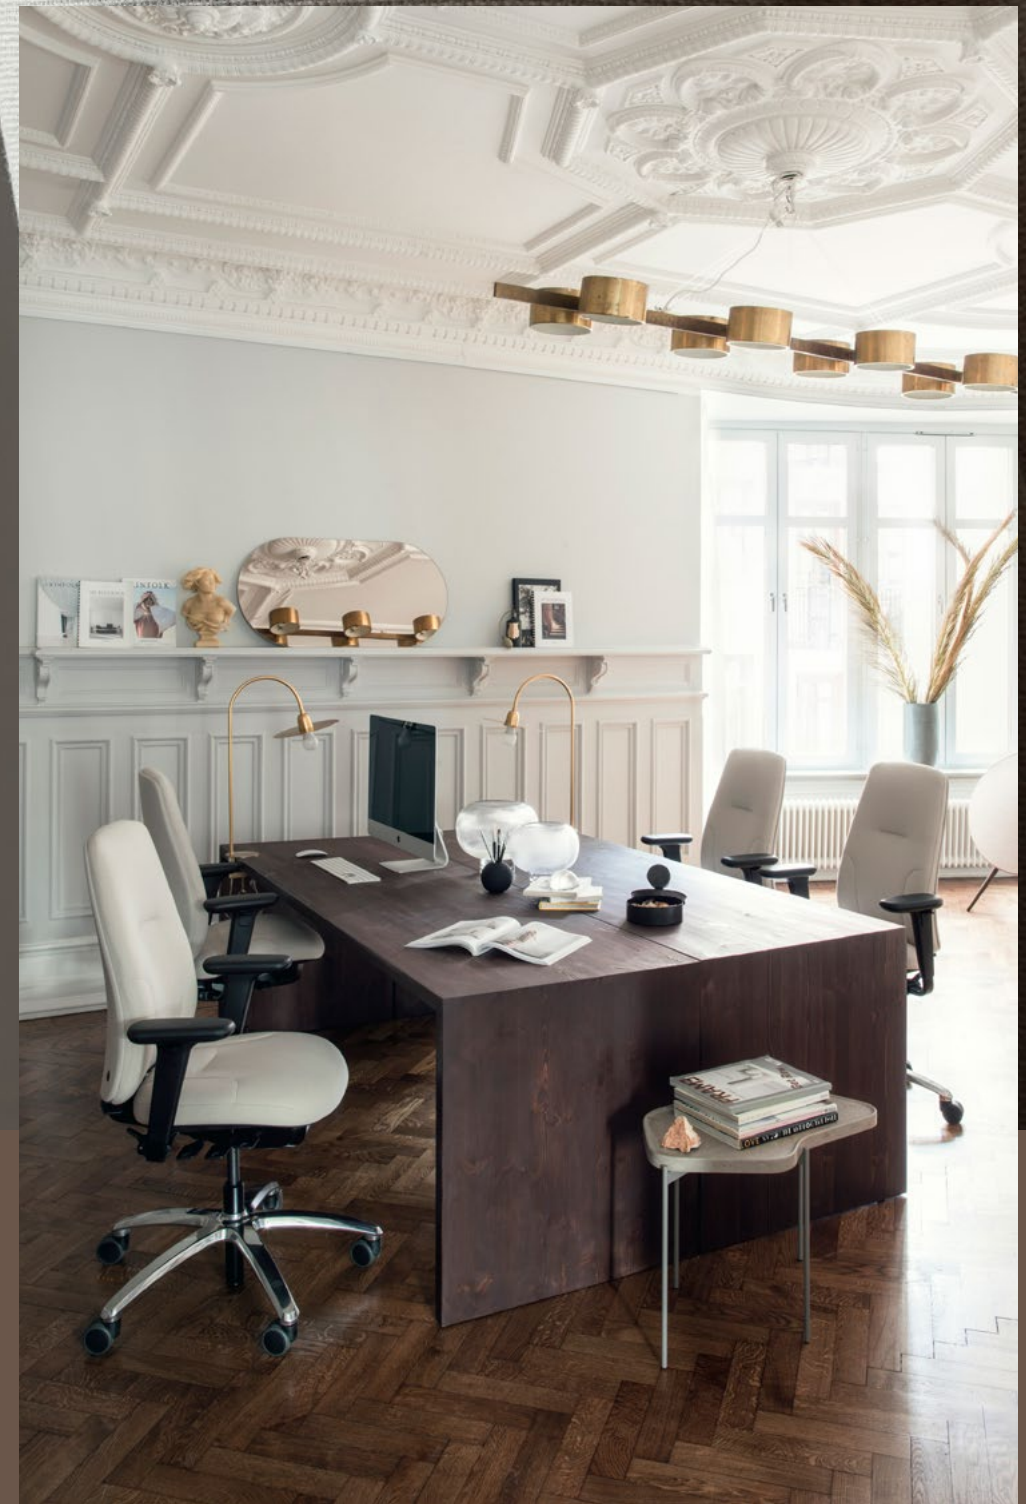

“To make it
accessible
has been the
driving force”

JONAS STOKKE
Designer RH Logic

DESIGNED FOR HUMAN PERFORMANCE

WHOEVER YOU ARE, WHATEVER YOU DO, WHENEVER YOU DO IT – DO IT IN COMFORT.

The way we work depends on who we are, what we do and when we do it. But one thing that unites us is the need for well-being during long hours by the desk. The improved RH Logic 200/220 is a natural choice for lasting individual comfort. By adjusting smoothly to your body and providing crucial support and relief, it helps you stay focused on getting things done – no matter who you are, what you do or when you do it.

HOW THE RH LOGIC WORKS

DESIGNED FOR HUMAN PERFORMANCE

THE DESIGN PROCESS

The RH Logic 200/220 is the result of a five year long process, where a large team of our own developers have collaborated closely with designers Jonas Stokke and Øystein Austad.

The driving force has been to make the chair accessible and comfortable to use but also to manage and to look at. Partners and architects were involved early on in the process and a number of users have provided crucial input during several stages of testing and development. All this to make sure that the chair meets every demand.

RH Logic is designed for extended use, with a focus on functionality, comfort and materials. Replaceable components and a modular construction make it easier to maintain the chair over time.

A CHAIR
BUILT
TO LAST

RH Logic is designed with maintenance and repair in mind. Selected components can be replaced when needed, rather than replacing the entire chair. The chair is also designed for disassembly, making it easier to separate materials for recycling where appropriate.

"Our products have a very long-life span and some are very technical but we must consider how, when the time comes, these products can be repaired and repurposed."

ØYSTEIN AUSTAD
Design Manager, Flokk

RH LOGIC 220

RH Logic 220 has a large back and comes as standard with castors for carpeted floors and base in black lacquered aluminium. It can also be enhanced with a range of options such as neck rest, armrests and coat hanger.

RH LOGIC 200

RH Logic 200 has a medium back and comes as standard with castors for carpeted floors and base in black lacquered aluminium. It can also be enhanced with neck rest and arm rests.

With the RH Logic 200/220, you can choose between a number of features such as two different back rests and a wide range of colours, fabrics and stitching. Bases and castors are also available in different colours and materials.
